We're experts specializing in pediatric dentistry with one clear goal in mind— to change the way kids feel about going to the dentist. We've taken conventional dentistry and turned it on its head to create a feel good do-good pediatric practice where dentistry is easier, collaborative learning is fun, play is encouraged, and being different is celebrated.

Description. Dental debridement is a procedure by which plaque and calculus (tartar) that have accumulated on the teeth is removed. Debridement may be performed in the process of personal or professional teeth cleaning. Professional debridement techniques include the use of ultrasonic instruments (which fracture the calculus, thereby facilitating its removal), as well as the use of hand tools ...

What's the use of an affordable college if a degree from it doesn't earn you a good living? Conversely, what's the point of paying an expensive tuition if you can get a high-quality, high-return education for half the cost? Attending a college or university is one of the most expensive investments you will ever make, [...]

"I take a "whole child" and a "whole family" view with every visit. Though I can't necessarily explain why a child has a disability, I can help solve practical concerns families have about caring for their child right now. I rarely "cure" or "fix" the disorder, but I can promise the family that I am ...
