Examples. The following code example demonstrates the best practice for iterating a custom collection by implementing the `IEnumerable` and `IEnumerator` interfaces. In this example, members of these interfaces are not explicitly called, but they are implemented to support the use of `foreach` (For Each in Visual Basic) to iterate through the collection. This example is a complete Console app.

I've written about VBA and Acrobat JavaScript before, and I've also mentioned that you can combine VBA and JavaScript to access PDF form fields, but I still owe a sample for that. I had to answer another question today about how to exactly do that, so I whipped up a quick sample program that demonstrates the use of the JavaScript Object (JSO) to read and write AcroForm fields.

How would we identify pages in a PDF document that contain a certain word and extract those pages into a new document? This can be done with a few lines of JavaScript - there are different ways to do this: We can create a document level JavaScript and install it in the one of Acrobat's JavaScript folders (see here for more information about how to identify the folder where to install such ...

@OmarIthawi that is just silly. It's a proof-of-concept with awkward API, inefficient implementation. I think it is better to consider libraries on their own merits, instead of trying to deduce quality out of its authors visibility -- Doug has achieved many things, but that does not really change qualities of the particular lib. 10 years ago it was the only game in town, but since then there ...

In computer programming, an indentation style is a convention governing the indentation of blocks of code to convey program structure. This article largely addresses the free-form languages, such as C and its descendants, but can be (and often is) applied to most other programming languages (especially those in the curly bracket family), where whitespace is otherwise insignificant.

Fluentd uses MessagePack for all internal data representation. It's crazy fast because of zero-copy optimization of msgpack-ruby. Now MessagePack is an essential component of Fluentd to achieve high performance and flexibility at the same time.

MessagePack: It's like JSON. but fast and small.

Mozilla Firefox was created by Dave Hyatt and Blake Ross as an experimental branch of the Mozilla browser, first released the Firefox 1.0 on November 9, 2004. Since version 5.0, a rapid release cycle was put into effect, resulting in a new major version release every six weeks on Tuesday. Firefox 66 is the latest version released on March 19, 2019.
