I am having a lot of difficulty getting a SaveAs command to work properly. For a local hospital, there are patient charts which are created from a template file, in which patient data is entered after which it is manually renamed (using save-As) and then copied to another location as a backup.

SaveAs command does not work, but SaveCopyAs does

The Rasch model, named after Georg Rasch, is a family of psychometric models for creating measurements from categorical data, such as answers to questions on a reading assessment or questionnaire responses, as a function of the trade-off between (a) the respondent's abilities, attitudes, or personality traits and (b) the item difficulty. For example, they may be used to estimate a student's ...

The first version of modern controlled-access highways evolved during the first half of the 20th century. The Long Island Motor Parkway on Long Island, New York, opened in 1908 as a private venture, was the world's first limited-access roadway. It included many modern features, including banked turns, guard rails and reinforced concrete tarmac. Modern controlled-access highways originated in ...
