The Geometer's Sketchpad® is the world's leading software for teaching mathematics. Sketchpad® gives students at all levels—from third grade through college—a tangible, visual way to learn mathematics that increases their engagement, understanding, and achievement. Make math more meaningful and memorable using Sketchpad. Elementary students can manipulate dynamic models of fractions ...

In probability theory, an outcome is a possible result of an experiment. Each possible outcome of a particular experiment is unique, and different outcomes are mutually exclusive (only one outcome will occur on each trial of the experiment). All of the possible outcomes of an experiment form the elements of a sample space.. For the experiment where we flip a coin twice, the four possible ...

### Outcome (probability) - Wikipedia

In mathematics, a zero, also sometimes called a root, of a real-, complex- or generally vector-valued function is a member of the domain of such that () vanishes at ; that is, is a solution of the equation =. In other words, a "zero" of a function is an input value that produces an output of .. A root of a polynomial is a zero of the corresponding polynomial function.
